

**“ASIAN VOICES: Directions in Digital Creation 2010”**

**Norico Wada, TBS**

The voices of Asian creators are ringing throughout the world, as the digital palette becomes more readily available to a region already rich with unique cultures and histories. This presentation will give an in-depth view on prominent voices of Asia in the digital content realm, with numerous examples of innovative works representing China, Hong Kong, India, Japan, Korea, Malaysia, Philippines, Singapore, Taiwan, and Thailand. These works were carefully selected from more than 9,200 entries to the TBS DigiCon6 Awards, an annual competition that discovers and recognizes emerging digital creators throughout Asia.
